New Mid-State housing opportunity available at The Villas at Marshfield

WISCONSIN RAPIDS, Wis. – Student housing is now available for Mid-State Technical College students at The Villas at Marshfield. An open house event was held on April 16 for the public to visit Mid-State’s Marshfield Campus and The Villas.

In addition to touring The Villas and the Marshfield Campus, open house attendees had the chance to meet with Mid-State outreach, financial aid and advising staff to learn more about the College and how to get started. The Daily Special Food Truck was also on-site, providing a meal for visitors.

Conveniently located across the street from Mid-State’s Marshfield Campus, The Villas at Marshfield offers students a premier living experience with fully furnished apartments, each featuring private bedrooms and bathrooms. Students can choose to live with fellow Mid-State classmates or request a specific roommate. At a cost of \$499 per person per month, rent includes free parking, cable TV, internet, utilities, a gym, on-site laundry and access to a variety of residential events and activities.

“We’re excited to offer Mid-State students a convenient and affordable student housing option in Marshfield,” said Dr. Alex Lendved, dean of the Marshfield Campus and School of Applied Technology. “Paired with our growing University Transfer program and strong four-year transfer partnerships, The Villas at Marshfield make it possible for students to stay close to home while still gaining independence and experiencing college life in a supportive environment.”

In addition to The Villas, Mid-State students have the option to live in a residence hall at the University of Wisconsin–Stevens Point.

Interested students should complete an interest form. For more information about student housing and to complete the interest form, visit at mstc.edu/student-housing.
